Certificate No. 38 )

Case No. AP-84-41

By application filed October 12, 1984, International Limousine Service, Inc., ("ILS" or "applicant") seeks amendment of Certificate of Public Convenience and Necessity No. 38 issued to ILS pursuant to Order No. 2187, served January 26, 1981. Certificate No. 38 authorizes the following transportation:

CHARTER OPERATIONS, over irregular routes, transporting passengers and their baggage, in the same vehicle with passengers between points in the Metropolitan District.

RESTRICTED: (a) to transportation in vehicles with a manufacturer's designed seating capacity for 16 to 21 passengers (including the driver), (b) against transportation to or from Washington National Airport or Dulles International Airport except as performed in connection with a prearranged charter movement by the same party between at least two other points in the Metropolitan District, (c) against the use of more than one vehicle in any one day for transporting the same group, (d) against transportation described in Commission Regulation No. 70-01, and (e) against operations between points solely in Virginia.

By its application, ILS proposes the elimination of that restriction which prohibits its transporting a single group in multiple vehicles. Disposition of such applications is governed by Title II, Article XII, Section 4(g) which provides, inter alia, that "... any such certificate, may, upon application of the holder thereof, in the discretion of the Commission, be amended. . . ."
